DEON MONAI / EDITION 04

THE CITY HAS A LIFE.

A visual identity for art that keeps its strange edges, a city that moves, and things with another life.

BRAND GUIDE / THE LIVING CITY

THE NAME.

Urban Introspection by Deon Monai is the full signature. The UI monogram is the small sign; pair it with the name when people are meeting the brand for the first time.

LOGO SPACE

Give the logo room to breathe. Keep its shape and proportions, and choose the dark or light version that stays readable over the background.

FILES INCLUDED

SVG vectors and transparent PNGs include the primary lockup, monochrome versions, a reversed version and the compact UI monogram.

CANDY IN THE CITY.

Warm newspaper paper, muted candy color and charcoal frame the original artwork. HEX values below define the website palette.

PAPER
#E9DFCB / 233, 223, 203

WARM CREAM
#F4ECDC / 244, 236, 220

CITY CHARCOAL
#292B27 / 41, 43, 39

DUSTY ROSE
#C98E93 / 201, 142, 147

FADED TURQUOISE
#7EAEA9 / 126, 174, 169

CANDY YELLOW
#E4D453 / 228, 212, 83

CMYK values in the palette folder are approximate. Use the printer’s color profile and request a proof for production.

ROOFTOP CUT.

The custom display face is a cut-paper sign for headlines, labels and expressive short phrases. Type stays dimensional and responsive in the digital world.

KEEP THE QUIRKS.

ABCDEFGHIJKLMNOPQRSTUVWXYZ

0123456789 & ! O

FOR EVERYDAY WORDS

Use a clear sans serif such as Arial for navigation, product details and longer reading. Keep plenty of line spacing. Use Rooftop Cut in short bursts where it can be read.

FONT FILES

Install the TTF for design work; use WOFF on the web. The font is included in this kit.

THE ART LEADS.

Use Deon’s uploaded artwork as the source. Preserve its rough edges, odd anatomy, marks, faded colors and collage imperfections.

CITY STUDY 01

CITY STUDY 02

CITY STUDY 03

Layer artwork like found photographs: paper borders, shadows, uneven angles and depth. The figures may move as whole silhouettes; keep heads and bodies connected.

TAKE IT OUTSIDE.

A small system of cards, tags, stickers, patterns and social layouts makes the same world recognizable on and off screen.

BUSINESS CARD / FRONT + BACK

HANG TAG

STICKER SHEET

Contact details are intentionally left as placeholders in the editable print files. The print PDFs include a 0.125 inch bleed on cards and tags; confirm the final specifications with your printer.

The social SVG templates keep text editable. Install the included font before changing the words, and check the exported image before posting.

GIVE IT LIFE.

The digital identity moves like paper in a city breeze. Headlines respond to the pointer; the UI mark has depth; selected whole figures walk and return to their frames.

01 / ARRIVE	Begin above the city, then travel down to the street.
02 / WANDER	Keep a readable path through the scene and offer pause or skip controls.
03 / RETURN	The figures become particles and find their way back into the art.
04 / SHOP	The art room and store carry the same paper, pink, turquoise and yellow palette.

Motion should remain optional and respect device preferences. Print artwork and static logos are included for uses that cannot move.
